What is e-Chit

An e-Chit is the electronic version of the Chit issued under the Construction Waste Disposal Scheme. You can request the e-Chit through the "C· Easy Online Submission" system (Form 1, 2 & 4)[a]. An email will be sent to the registered email address of the Account Holder who can logon the "C· Easy System" to manage the e-Chit and related information of their account; and view and download the construction waste transaction records.

The Construction Waste Drivers hired by the Account Holder should download and install a mobile application (C· Easy app) [b] at their mobile phone to receive the e-Chit issued by the Account Holder. Upon arrival at the weighbridge of the waste disposal facility, the driver can turn on the Bluetooth function of the phone or use the QR code scanner installed in the weighbridge to use the e-Chit. The whole process is similar to using paper Chits, but faster and easier! When the driver leaves the waste disposal facility after disposal of construction waste through the weighbridge, an electronic receipt will be sent to the driver and the Account Holder, informing them the transaction is completed.

a. Request e-Chit through "C· Easy Online Submission" system

Use Form 4 (e form format) to select the request of

1. 100% paper Chits; OR
2. 100% e-Chits; OR
3. a combination of paper Chits and e-Chits

(Note: once account holder has selected (3), auto-replenishment will be cancelled and in future account holder who will receive the email notification of replenishment of Chits and need to fill and submit Form 4 (e form format))

b. Mobile Application "C· Easy app"

C · Easy is an app developed by EPD to handle and process e-Chit. User (drivers) receive the e-Chit on their phone. Upon arrival at the weighbridge of the waste disposal facility, they can turn on the Bluetooth function of the phone or use the QR code scanner installed in the weighbridge to use the e-Chit. The whole process is similar to using paper Chits, but faster and easier! When the driver leaves the waste disposal facility after disposal of construction waste through the weighbridge, an electronic receipt will be sent to the driver and the Account Holder, informing them the transaction is completed.
